

All-Natural, Additive-Free Treats Form Japan

# Deer Jerky

Pure Venison, Premium Quality

High in protein, low in calories, low in allergens, rich in nutrients

Putting your dog's health first, we carefully select high-quality venison leg and pork loin, meticulously trimming away fat, membranes, and tendons to create a delicious, premium jerky your dog will love.

## An exquisite taste from the purest nature.

In collaboration with the Tokachi Foundation, we've conducted extensive research to precisely control drying time, temperature, moisture activity, and bacterial levels. Each slice is cut 5mm thin against the grain and gently air-dried to achieve a light, crispy texture and rich, natural flavor.

## Packed with essential nutrients to fuel a health life.

Savor the finest Japanese Deer Jerky, experience the pure, powerful energy of nature.

Delicately tender with a smooth texture, releasing the deep, savory aroma of premium venison fat.

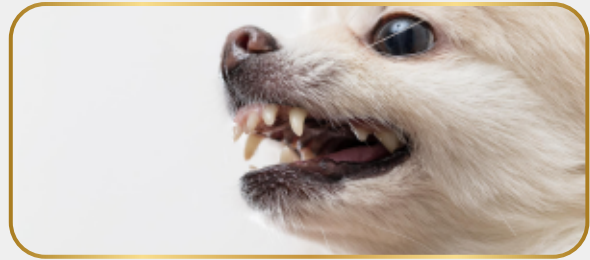

## 100% Additive-Free

This Deer Jerky meets human-grade quality standards. Free from any seasonings, additives, or preservatives—just pure, natural goodness your dog can safely enjoy.

### Benefits of Deer Jerky for Dogs

Provides mental stimulation  
and relieves boredom

Helps reduce plaque and tartar buildup,  
promoting dental health

Offers extra nutrients to  
supplement daily meals

Strengthens bonds and serves as a positive  
reinforcement tool during training
